

Diamond Wipes International, Inc. specializes in developing and engineering new types of wipe products, all made in the USA. The company has over 26 years of developmental leadership with a continual focus on providing marketplace solutions.

“I knew we could do something to help and we created a product that enables firefighters to perform effective on-scene decon, with a wipe that could actively remove the harmful carcinogens they commonly encounter.”

Diamond Wipes International

WHY HERO WIPES?

BECAUSE THEIR LIVES DEPEND ON DOING THE RIGHT THING

PROVEN RESULTS

Hero Wipes are specially formulated to remove toxic, cancer-causing carcinogens from firefighters' skin before they leave the scene of a fire.

A patent-pending balanced blend of ingredients isolates harmful chemical compounds and traps them in the wipe.

Third-party testing shows that Hero Wipes **remove up to 69% of the toxic flame retardant TCEP and 90% of Benzopyrene (BaP) found in soot.**

PROPER DECON IS CRUCIAL

Exposure to fire, flame retardants, and high-toxin synthetic materials puts firefighters at a **14% higher risk of dying from cancer** than the general population*.

As their body temperatures rise in their protective gear, the skin's absorption level increases**, making proper on-site decontamination critical to their longterm health.

MADE TOUGH, LIKE FIREFIGHTERS

Not all wipes are equal. Intended for heavy-duty use, each wipe is thick, tough, stretchable, and virtually indestructible compared to everyday baby wipes.

Hero Wipes come through when you need them and won't break down on the job.

*The National Institute for Occupational Safety and Health study. **Firefighter's Cancer Support Network.

hero+ wipes

Tough on Soot, Safe on Skin

+ 70-gsm disposable towels are thick, tough, stretchable, and virtually indestructible compared to run-of-the-mill baby wipes or even adult washcloths.

+ Patent-pending cleansing formula includes:

- +** Balanced blend of natural & synthetic surfactants rinses away dirt and impurities from skin;
- +** Natural humectant and moisturizing ingredients to soothe, condition & repair skin with propanediol, aloe, cucumber, chamomile & oat extracts.

+ Chelating and cleaning agents help to lift away known potential carcinogens from the skin and trap them in the wipe.

+ Scientifically tested by independent laboratory for effectiveness in removing carcinogenic compounds TCEP & BaP — two common harmful toxins identified as causes of cancer

Ingredients in Hero Wipes

Water/Aqua/Eau, Propanediol, Aloe Barbadensis Leaf Extract, Chamomila Recutita (Matricaria) Flower Extract, Cucumis Sativus (Cucumber) Fruit Extract, Althaea Officinalis Root Extract, Avena Sativa (Oat) Kernel Extract, Decyl Glucoside, Polyglyceryl-10 Caprylate/Caprato, Coco Glucoside, Glyceryl Oleate, Polysorbate 20, Tetrasodium Glutamate Diacetate, Trisodium Phosphate, Citric Acid, Caprylyl Glycol, Sodium Benzoate, Potassium Sorbate, Phenoxyethanol, Sodium Hydroxide, Fragrance/Parfum*.

*For breakdown of fragrance, go to www.myherowipes.com.

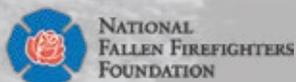

Optional powder-coated metal bracket available for permanent installation on vehicle/station for easy dispensing.

- ✗ Made to be as gentle as possible. Bare minimal cleansing agents.
- ✗ Baby wipes are not tested for their effectiveness against carcinogenic soot removal.
- ✗ Too thin and too small for professional cleansing application.

BABY WIPES VS HERO WIPES WHY RISK IT?

- ✚ Made specifically to meet on-scene decon needs of firefighters.
- ✚ First & only in industry to be tested and proven for its efficacy to remove carcinogenic compounds.
- ✚ Strong towels perfect for tough cleansing jobs.
- ✚ Each Hero Wipes is proudly designed and made in the USA.
- ✚ Sale of each Hero Wipes directly benefits National Fallen Firefighters Foundation.

Instantly cleans & removes carcinogenic contaminants from your
