STRUCTURAL FIRE BOOTS

**YOUR
CORPORATE
LADDER
IS HOTTER
THAN MOST.**

A rush job entails running 10-33 in response to an alarm. Getting a good client review means an emotional sob of thanks from the parent of a child you've just rescued. And a successful project might include saving thousands of acres of forest, or countless memories from a home.

Let's face it: the stakes at your job are higher than those of the average American worker.

And because your shift lasts 24 hours (and sometimes beyond), you need footwear to handle everything from fighting a fire to filling out paperwork to cleaning the station. You need footwear that you don't need to worry about.

That's a tall order. Thankfully, we can fill it.

LION-Thorogood has relentlessly focused on craftsmanship, innovation, and comfort, while recognizing the importance of footwear to your livelihood and getting the job done.

STRUCTURAL FIRE BOOTS

KnockDown Elite™ 14" Leather Boot

No matter how many times the alarm sounds during your shift, these black flame-resisting leather upper KnockDown boots go on with ease. Once your foot slides in, the ankle lock system holds you firmly in place until you use the handy heel kick plate to take them off. Our exclusive Vibram® Fire & Ice All-Terrain Sole provides exceptional traction on any surface; including pitched roofs and steep embankments. It stands up to the heat and will help keep a steady foot when fighting winter fires and the water turns to ice. The GORE CROSSTECH Moisture Barrier also repels dangerous fluids. Take a hit to the ankle thanks to the Poron® XRD® padding - the same impact protection used in motocross racing. Composite Safety Toe, Lenzi L-Protection® insole, and steel triple-rib ladder shank protect your foot from impact and the strain of working on ladders. And because you might be on your feet for hours, the dual-density removable insole molds to the shape of your foot to keep you comfortable until you're back at the station.

- GORE® CROSSTECH® triple-layer moisture barrier protects against blood-borne pathogens
- Waterproof, flame-resisting leather upper with abrasion-resisting rubber toe and heel protection.
- Removable dual-density polyurethane insole
- Lenzi L-Protection® flexible, non-metallic, puncture-resisting insole
- Steel triple-rib ladder shank
- Exclusive Vibram® ATS sole with Fire & Ice technology
- Cement construction
- Certified to meet NFPA 1971 structural & NFPA 1992 liquid splash
- CSA Z195-14 Edition-7
