# American Honor<sup>™</sup> Modern-Style Fire Helmet

Built with the same long lasting state-of-the-art composites as the traditional American Legend<sup>™</sup> helmet, LION's new American Honor<sup>™</sup> modern-style helmet is strong, comfortable, and keeps first responders ready for action. Modernized, low-profile and lighter-weight design keeps the stress load down, yet still provides the same "heavyweight" protection when it comes to taking a hit thanks to our strong shell and impact cap system. The American Honor features an impact-resistant matte finish shell that resists cracking and chipping, the patented Center of Gravity<sup>™</sup> adjustment system, QuickClean<sup>™</sup> soft goods, and is offered with a full range of approved options to meet all NFPA 1971 eye protection needs.
