STRUCTURAL FIRE BOOTS

**YOUR
CORPORATE
LADDER
IS HOTTER
THAN MOST.**

A rush job entails running 10-33 in response to an alarm. Getting a good client review means an emotional sob of thanks from the parent of a child you've just rescued. And a successful project might include saving thousands of acres of forest, or countless memories from a home.

Let's face it: the stakes at your job are higher than those of the average American worker.

And because your shift lasts 24 hours (and sometimes beyond), you need footwear to handle everything from fighting a fire to filling out paperwork to cleaning the station. You need footwear that you don't need to worry about.

That's a tall order. Thankfully, we can fill it.

LION-Thorogood has relentlessly focused on craftsmanship, innovation, and comfort, while recognizing the importance of footwear to your livelihood and getting the job done.

STRUCTURAL FIRE BOOTS

QR14™ 14" Structural Leather Boot

LION-Thorogood's QR14 bunker boots are built for comfort, durability and safety. The flex gussets allow the boot to move with you. 3M™ Scotchlite Hi-Vis piping in these waterproof, flame- and cut-resisting leather bunker boots creates a high-visibility look when exposed to direct light. The aggressive, slip-resisting outsole with 90 degree heel and ladder grips provide exceptional traction on any surface. GORE CROSSTECH triple layer moisture barrier is the toughest in the industry, delivering rugged, long-lasting protection that exceeds the requirements of the NFPA 1971 standard. The composite safety toe, Lenzi L-Protection® insole, and steel triple-rib ladder shank protects your foot from impact, puncture, and the strain of working on ladders. Extra padding in the shin and ankle protects you from ladder rungs and other impacts. Slip-resistant in all conditions and heat-resistant when the going gets hot, these all-weather boots don't quit until you do.

- GORE® CROSSTECH® triple-layer moisture barrier protects against blood-borne pathogens
- Waterproof, flame- and cut-resisting leather upper with abrasion-resisting rubber toe
- Steel Triple-Rib Ladder Shank
- Proprietary Traction Flex outsole
- Cement Construction
- Certified to meet NFPA 1971
- CSA Z195-14 Edition-7
